Improvements and extension works to Morley Memorial Primary School

Introduction

Cambridgeshire County Council and Morley Memorial School have continued to work together to develop proposals for enhancing the school's accommodation to support its academic vision.

A public consultation was held last year. Feedback from this consultation highlighted a number of areas of concerns. During the past year the school and Council have reflected on the comments made and have undertaken further work to ensure that the proposals deliver the school's aspirations effectively.

Following this work the Council and School have identified a preferred option for redevelopment of the site and are please to share these as part of a new public consultation. This will be held on **Monday 29th of June 2015 from 3.00pm-8.30pm** in the school hall.

We would like to invite you to view the development proposals. Whilst the proposals represent the preferred solution, it is recognised that there remains the opportunity to make further changes to the scheme. We would welcome your feedback and comments on the proposals and design approach to ensure that we can deliver as positive a change for the school and future generations as possible.

The project team and representatives of the school will be available to answer any questions you may have about the proposals and the approach taken in reaching the preferred option. If you are unable to attend the event you will still be able to view the plans. These will be displayed at the school until Monday 13th of July 2015, and we would encourage you to share your comments on the forms which will also be available.

The proposals include:

- Redevelopment of the school to bring all year groups on to the main school site.
- Refurbishment and remodelling of existing accommodation to provide non-classroom learning opportunities and improved circulation and access around the school.
- Providing a purpose built space for breakfast and after school clubs.
- Improved external play areas, including the existing hard play space which will remain part of the school.
- Redevelopment of the Annex to provide dedicated provision for 0-4 year olds.

All feedback received will be considered by the School and Design Team prior to finalising the design approach ahead of a planning application submission.

We look forward to being able to share more detail about this exciting opportunity for Morley Memorial Primary School.

We hope that you will be able to participate in the consultation, and look forward to hearing your views on the design proposals.
